EME ENGINEERING ***ASIA PACIFIC PTE LTD***

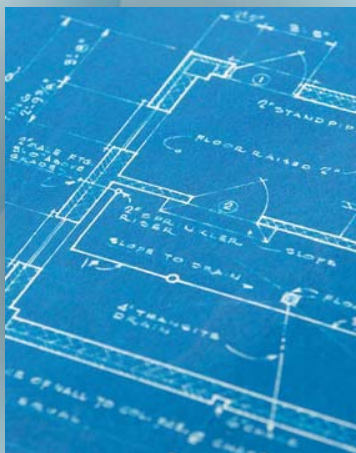

Driving Innovation in Engineering Solutions

Driving Innovation in Engineering Solutions

Formed by the coming together of Industry Professionals with at least 20 years of experience in their respective industries, EME Engineering Asia Pacific Pte Ltd boasts a Dynamic Management Team, a highly dedicated Engineering Team and an enviable Sales and After-Sales Network that spans almost all countries in the Asia Pacific.

Drawing upon our experience and know-how to engineer solutions that present the Best Value to our Customers, EME Engineering Asia Pacific Pte Ltd's aim is to become a World-Class Solutions Provider.

Always listening to our Customers' Needs, Always on the forefront of the Latest Technological Advancements, Always offering the Best Possible Solutions and Always a Thinking Partner.

A drop in the ocean .. but slowly and steadily gaining recognition.

EME ENGINEERING ASIA PACIFIC

International Principals of EME Engineering Asia Pacific

Alternators

EME Germany

Rotary Frequency Converters

EME Germany

EME Germany is an International company specialising in the manufacture and supply of special alternators and frequency converters, both for Germany and the International market. Their alternators have been used on many ocean going vessels, oil & gas platforms and important installations. The frequency converters have been deployed in military air bases, naval bases, shipyards, naval and commercial vessels, commercial airports, etc.

Static Frequency Converters

AXA POWER Denmark

AXA Power is the world's leading supplier of 400 Hz solid-state Ground Power Units with more than 6.000 units in operation at leading airports world-wide.

AXA Ground Power Units have proven their strengths through deliveries to leading airports around the world.

Variable Speed Drives

INGETEAM TECHNOLOGY Spain

With almost 40 years' experience, INGATEAM offers custom-made products to clients in the power conversion market who need to convert electrical energy into mechanical operation and vice versa. Using state-of-the-art technologies, INGATEAM manufactures ad-hoc solutions in variable speed drives for sectors such as industry, marine, oil and gas, water, power generation, etc.

Other Products of EME Engineering Asia Pacific

Generating Sets

EME POWER GENERATION

Our EME POWER ILLUMINATION range of mobile lighting towers are purpose-built to offer competitive priced, robustly built and reliable mobile lighting solutions They are used widely in constructions sites, event lightings, emergency and rescue situations, mining operations and rental fleets.

Green Power Conversion

EME GREEN POWER

The conversion of engines and Power Plants from fossil fuels to vegetable fuel like Palm oil, Jatropha, Pongamia,

Coconut oil or Rape seeds offer the possibility to utilize renewable energy, which in most cases are easily available locally. Fossil fuel can thus be partially or totally replaced depending on the availability of such vegetable oil.

Our versatility, experience and adherence to strict quality standards assure our every Client a solution that yields great cost benefits and an assurance of a dependable power source.

With manufacturing partners in Asia and Europe, we have in our range products to suit most project's commercial and technical requirements.

Lighting Towers

EME POWER ILLUMINATION

Replacement Parts

EME POWER PARTS

Leveraging on our experience with the equipment we deal with and our good relationship with reputed equipment manufacturers, EME Engineering is able to provide genuine replacement parts from leading brands.
