

**SINE331-GPU**  
30, 45, 60 & 90 KVA SOLID STATE 400HZ GROUND POWER UNIT

Sinepower have been developing and manufacturing 400Hz solid state Frequency Converters for more than a decade now.

Our policy, has always been, to offer the best designed products that are environmentally friendly, simple to use, easy to maintain and exceptionally well manufactured thus meeting our clients requirements as well as complying with all standards and legislation.

Sinepower's GPU units were designed with Power factor correction to guarantee a perfect sinusoidal input current from 25% to 150% load and a low THDi (<1.5%).

Sinepower ensure high quality, efficient and secure electrical power supplies.
